FUTURO™
Products

FUTURO™ Comfort Lift Knee

The FUTURO™ Comfort Lift Knee is designed to provide mild support for your knee, helping you maintain an active lifestyle without discomfort. This knee support features a four-way stretch, contoured design that conforms to your knee for a secure, comfortable fit. The breathable material keeps you cool and dry, while the flexible fabric promotes a full range of motion, so you can move naturally throughout your day.

Perfect for those with stiff, weak, or injured knees, the low-profile, elastic knit construction allows the support to fit discreetly under clothing for all-day wear. Whether you're enjoying low-impact activities or need relief from everyday stress on your knees, the FUTURO™ Comfort Lift Knee offers the comfort and mild support you need to get back to doing what you love.

Key Features:

- Four-way stretch material conforms to your knee for comfort and mild support
- Breathable design helps keep you cool and dry
- Flexible fabric allows for a full range of motion
- Versatile design can be worn on either knee
- Low-profile silhouette fits discreetly under clothing
- Supported by experts in engineering and medical fields

Support Level: Mild

Ideal For: Stiff, weak, or injured knees; general support during low-impact activities

Composition: Nylon, Polyester, Spandex

Sizes: S/M/L/XL

FUTURO™ Comfort Lift Ankle

Designed to provide reliable support and mild compression for weak or injured ankles, the Comfort Lift Ankle helps you stay active and on your feet. Made with 4-way stretch materials and a contoured design, this ankle support conforms comfortably to your ankle, providing targeted relief for stiffness, soreness, or injury.

The breathable, compressive fabric promotes airflow to keep your skin dry and cool, making it perfect for all-day wear. The soft binding around the heel opening enhances comfort, while the slip-on style ensures easy application and removal.

Whether you're looking for support during low-impact activities, or quick relief on the court or at the gym, this ankle support fits comfortably inside most shoes, offering versatility for either foot.

Key Features:

- 4-way stretch material for mild compression and a secure fit
- Breathable design keeps skin dry and cool
- Soft binding around heel opening for enhanced comfort
- Contoured design for optimal fit and support
- Slip-on style for ease of use
- Versatile design fits either ankle
- Fits comfortably inside most footwear

Support Level: Mild

Ideal For: Stiff, sore, or injured ankles; general support during low-impact activities

Composition: Nylon, Polyester, Spandex

Sizes: S/M/L

Color: Beige

FUTURO™ Comfort Lift Elbow

Ideal for those seeking mild support and comfort, the Comfort Lift Elbow is designed with 4-way stretch materials that conform to your elbow for a snug, comfortable fit. This elbow brace is breathable, ensuring cooling comfort even during

extended wear. The easy-to-use sleeve design promotes a full range of motion, making it suitable for everyday use, low-impact activities, and general support.

With its low-profile silhouette, this brace fits discreetly under clothing, providing support without being bulky. Its versatile design allows for wear on either arm, offering convenience and flexibility. Whether you're managing stiffness, weakness, or an injury, this elbow support provides the necessary compression and comfort. Supported by expert engineers and medical professionals, it's an ideal solution for a wide range of users.

Key Features:

- 4-way stretch materials for comfort and mild support
- Breathable fabric for cooling comfort
- Flexible design promotes full range of motion
- Low-profile design fits discreetly under clothing
- Versatile wear on either arm
- Supported by experts in engineering and medical fields

Support Level: Mild

Ideal For: Stiff, weak, and injured elbows; general support for low-impact activities

Composition: Nylon, Polyester, Spandex

Sizes: S/M/L

Color: Beige

FUTURO™ Comfort Support Knee Stabilizer

The Comfort Support Knee Stabilizer is designed to provide enhanced support and stability for weak or injured knees. This knee brace offers moderate-stabilizing support, making it the perfect solution for those dealing with soreness, stiffness, or recovery from knee injuries. With its elastic knit fabric, this support can be worn comfortably under clothing throughout the day, offering all-day relief.

Equipped with dual side stabilizers, this knee support helps reduce lateral movement and provides extra stability, without limiting your range of motion. The open patella design offers

added comfort by reducing pressure on the kneecap. Whether you're dealing with common injuries like sprains or strains, or simply need general knee support, the Comfort Fit Knee Stabilizer ensures you can stay active and mobile.

Key Features:

- Moderate-stabilizing support for weak, sore, or injured knees
- Dual side stabilizers provide added support without limiting mobility
- Open patella design reduces pressure on the kneecap for increased comfort
- Easy-to-use slip-on sleeve design for convenience
- Flexible fabric promotes a full range of motion
- Contoured design for an optimal fit
- Comfort panel behind the knee helps reduce bunching

Support Level: Moderate

Ideal For: Stiff, weak, sore, or injured knees; common knee injuries such as sprains or strains

Composition: Steel, Nylon, Polyester, Spandex, Cotton, Polyurethane

Sizes: S/M/L

Colors: Grey, Beige

FUTURO™ Comfort Fit Knee

Regain your comfort and stability with the FUTURO™ Comfort Fit Knee Support. Designed to provide moderate support and adjustable compression, this knee brace helps alleviate discomfort from weak, sore, or injured knees, making it easier to stay active and continue your daily routine.

Crafted from a breathable neoprene blend, the knee support features a reinforced patella ring to provide targeted support while allowing for natural knee movement. Three adjustable straps offer a customizable fit, ensuring the optimal level of compression and support. The soft, moisture-wicking fabric helps keep you cool and dry, and the contoured design minimizes bunching for a smooth and comfortable fit throughout the day. A comfort sleeve prevents pinching or chafing behind the knee, ensuring all-day wear ability.

Whether you're managing knee pain from a sports injury, arthritis, or simply need extra support for your knees, the

FUTURO™ Comfort Fit Knee Support delivers the stability and comfort you need to stay on the move.

Key Features:

- Moderate support and adjustable compression for weak, sore, or injured knees
- Reinforced patella ring provides targeted support while allowing full range of motion
- Three adjustable straps offer a customizable fit
- Breathable, moisture-wicking material keeps you cool and dry
- Contoured, four-way stretch design minimizes bunching for a smooth fit
- Comfort sleeve prevents pinching and chafing behind the knee
- Durable binding reduces snagging
- Ideal for everyday activities, sports, or recovery from knee injuries

Size: One size fits most (right or left leg)

Color: Grey

Material: Neoprene, Nylon, Polyester, Spandex, Steel

Whether you're dealing with arthritis, tendonitis, or recovering from a knee injury, the Comfort Fit Knee Support provides the reliable support you need to stay active and confident.

FUTURO™ Comfort Fit Knee Stabilizer

Regain your stability and comfort with the Comfort Fit Knee Stabilizer. Designed to provide firm support and adjustable compression, this knee brace helps alleviate pain and discomfort from weak, sore, or injured knees, making it easier to stay active and maintain your daily routine.

Crafted from a breathable neoprene blend, the knee stabilizer features dual side stabilizers and a reinforced patella ring to offer targeted support while allowing for full range of motion. The adjustable straps provide a customizable fit, ensuring optimal compression and support for your knee. Its soft, moisture-wicking fabric keeps you cool and dry, and the contoured design minimizes bunching for a smooth, comfortable fit throughout the day. The comfort sleeve prevents pinching or chafing, providing all-day wear ability.

Whether you're recovering from an injury or managing everyday discomfort, the Comfort Fit Knee Stabilizer offers the

support you need to stay active and confident.

Key Features:

- Firm support and adjustable compression for weak, sore, or injured knees
- Dual side stabilizers and reinforced patella ring provide targeted support
- Three adjustable straps allow for a customizable fit
- Breathable, moisture-wicking material keeps you cool and dry
- Contoured, four-way stretch design minimizes bunching
- Comfort sleeve prevents pinching and chafing
- Durable binding reduces snagging
- Ideal for everyday activities, sports, or recovery from knee injuries

Size: One size fits most (right or left leg)

Color: Grey

Material: Neoprene, Nylon, Polyester, Spandex, Steel

Whether you're dealing with arthritis, tendonitis, or recovering from a sports injury, the Comfort Fit Knee Stabilizer helps you stay on track and move with confidence.

FUTURO™ Comfort Fit Ankle

The Comfort Fit Ankle provides the moderate support and adjustable compression you need for weak, sore, or injured ankles. Designed for comfort and everyday use, this ankle brace helps you stay active, whether you're at work, running errands, or recovering from a sports injury.

Made from a breathable neoprene blend, the ankle support features a soft inner lining that feels gentle against the skin, while the four-way stretch material ensures a smooth, contoured fit that allows full range of motion. The step-in design is easy to wear, and the three adjustable straps help secure the brace in place, providing a customized fit and compression. Its moisture-wicking properties keep you cool and dry, ensuring comfort even during extended wear.

Whether you're managing arthritis, sprains, tendonitis, or plantar fasciitis, the Comfort Fit Ankle delivers the reliable support and comfort you need to stay on your feet.

Key Features:

- Moderate support and adjustable compression for weak, sore, or injured ankles
- Step-in design for easy wear
- Three adjustable straps provide a personalized fit and compression
- Breathable, moisture-wicking neoprene blend keeps you cool and dry
- Soft inner lining offers comfort against your skin
- Four-way stretch and contoured design minimize bunching for a smooth fit
- Premium binding reduces snagging for durability
- Ideal for arthritis, plantar fasciitis, sprains, strains, tendonitis, and swelling

Size: One size fits most (right or left ankle)

Color: Grey

Material: Neoprene, Nylon, Polyester, Spandex

Whether you're recovering from an injury or need extra support during everyday activities, the Comfort Fit Ankle helps keep you moving with confidence and comfort.

FUTURO™ Comfort Fit Wrist

The Comfort Fit Wrist Support is designed to provide moderate support and adjustable compression for weak, sore, or injured wrists. Ideal for all-day wear, this wrist brace offers the comfort and reliability you need whether you're typing, playing sports, or recovering from an injury.

Made with a breathable neoprene blend, this wrist support features a soft inner lining that feels comfortable against your skin. The four-way stretch material ensures a smooth, contoured fit that minimizes bunching, while the easy-to-apply wrap-around design makes it simple to wear. With an adjustable strap, the wrist support provides a personalized fit and compression to keep the brace securely in place. The moisture-wicking fabric helps keep you cool and dry, making it comfortable for long hours of use.

Whether you're managing arthritis, carpal tunnel syndrome, or recovering from a sports-related injury, the FUTURO™ Comfort

Fit Wrist Support offers the stability and comfort you need to stay active and pain-free.

Key Features:

- Moderate support and adjustable compression for weak, sore, or injured wrists
- Easy-to-apply wrap-around design with an adjustable strap for a secure fit
- Breathable, moisture-wicking neoprene blend keeps you cool and dry
- Soft inner lining provides comfort against your skin
- Four-way stretch and contoured design minimize bunching for a smooth fit
- Premium binding reduces snagging for durability
- Ideal for arthritis, carpal tunnel syndrome, repetitive stress injury, sprains, strains, and tendonitis

Size: One size fits most (right or left wrist)

Color: Grey

Material: Neoprene, Nylon, Polyester, Spandex

Whether you're at work, at the gym, or recovering from an injury, the Comfort Fit Wrist Support helps you stay

FUTURO™ Performance Comfort Knee

Stay active and supported with the Performance Comfort Knee Support, designed to deliver the relief and protection your knees need. Featuring a moderate-support design, this knee brace offers customizable levels of compression to help reduce discomfort while maintaining mobility. The easy-to-use comfort straps allow for a personalized fit, ensuring the right level of support for your unique needs.

With a focus on comfort, this knee support includes a patella shield and gel cushioning to provide additional support around the kneecap. The breathable materials promote airflow, keeping your skin dry during activity, while the contoured shape ensures an optimal fit for all-day wear. The versatile design can be worn on either knee, making it ideal for anyone seeking general knee support during exercise, sports, or daily activities.

- Moderate-support design offers customizable compression and support

- Patella shield and gel cushioning provide extra support at the kneecap
- Easy-to-use comfort straps for a personalized fit
- Breathable materials help keep skin cool and dry
- Convenient design can be worn on either knee
- Supported by our expert panel of engineers and medical professionals
- Size: Adjustable
- Color: Black

Moderate support for general knee support during daily activities, sports, or exercise. Made with Polyurethane, nylon, silicone, spandex, and polyester for durability, comfort, and

FUTURO™ Performance Comfort Ankle

Stay active and supported with the Performance Comfort Ankle Support. Designed to provide the support you need without the bulk, this ankle brace offers a low-profile, flexible fit that moves with you. The adjustable wraparound design lets you customize the compression and support to your preference, ensuring optimal comfort during athletic activities.

Made with breathable materials, this ankle support helps keep your skin dry and cool, even during intense workouts. The heel strap enhances comfort and stability, while the sleek design fits comfortably with a variety of footwear. Whether you're running, playing tennis, or exercising, this ankle brace gives you the extra support to keep you going strong.

- Moderate-support design for customizable compression and comfort
- Wraparound design for a personalized, secure fit
- Breathable fabric promotes airflow and helps keep skin dry
- Heel strap adds extra comfort and support
- Wear on either ankle for versatility
- Fits comfortably with a variety of footwear
- Supported by our expert panel of engineers and medical professionals
- Size: Adjustable
- Color: Black

Moderate support for athletic activities such as running, tennis, walking, and more. Made with Nylon, polyurethane, spandex, and polyester for durability and breathability.

The FUTURO™ Performance Comfort Ankle Support is your perfect companion for active days, offering the support you need without sacrificing comfort. Stay in the game and keep

FUTURO™ Performance Comfort Wrist

Stay at the top of your game with the Performance Comfort Wrist Support. Designed for those who need reliable support without the bulk, this wrist brace provides moderate compression and support, allowing you to move naturally while keeping your wrist secure. Whether you're hitting the gym or playing your favorite sport, this low-profile support offers a flexible design that contours to your wrist for optimal comfort.

The adjustable strap lets you customize the fit, ensuring personalized support that adapts to your needs. With breathable materials that enhance airflow, this wrist support helps keep your skin dry, even during intense activity. The wraparound style makes it easy to put on and take off, and the sleek construction fits comfortably under clothing, making it ideal for everyday wear.

- Moderate-support design for customizable compression and comfort
- Adjustable features allow for a personalized fit
- Breathable fabric keeps your skin dry and cool
- Versatile design – wear on either wrist
- Contoured, low-profile construction for optimal comfort
- Supported by our expert panel of engineers and medical professionals
- Size: Adjustable
- Color: Black

Moderate support for general activities and athletic performance. Made with Nylon, polyurethane, spandex, and polyester for durability and breathability.

The FUTURO™ Performance Comfort Wrist Support is your go-to solution for wrist support, delivering flexibility and comfort while you stay active.

FUTURO™ Performance Comfort Elbow

Stay in the game with the Performance Comfort Elbow Support, designed to deliver the perfect blend of support and

flexibility. This low-profile elbow brace provides the relief you need without the bulk, featuring an adjustable design that allows for a customized fit to suit your needs. Whether you're working out at the gym or playing sports on the court, this elbow support keeps you comfortable and supported.

Made with breathable fabric, the support helps to keep your skin cool and dry, allowing for a full range of motion without discomfort. The easy-to-use pull-on style and sleek design fit comfortably under clothing, making it perfect for everyday wear. With two adjustable straps, you can fine-tune the fit for the ideal level of compression and support.

- Moderate-support design for customizable compression and comfort
- Easy-to-use comfort straps for a personalized fit
- Breathable materials allow airflow and help keep skin dry
- Wearable on either elbow for versatility
- Low-profile design for optimal comfort and discreet wear
- Supported by our expert panel of engineers and medical professionals
- Size: Adjustable
- Color: Black

Moderate support ideal for general athletic activities and everyday use. Constructed from Nylon, polyurethane, spandex, and polyester for durability and enhanced breathability.

The FUTURO™ Performance Comfort Elbow Support keeps you moving, offering reliable support without restricting your performance.

FUTURO™ Sport Knee Support

When knee discomfort slows you down, the Sport Adjustable Knee Support helps you stay in the game. Designed with an open kneecap for targeted support, this knee brace offers moderate compression to relieve pain and promote recovery in weak or sore muscles and joints. Whether you're on the field, at the gym, or simply going about your daily activities, this knee support ensures you don't have to compromise on movement or comfort.

The three adjustable straps provide a customized fit, while the flexible materials allow for a full range of motion, making it easy to stay active without restriction. The neoprene blend material helps provide soothing heat retention around the

1 KNEE SUPPORT

joint, offering added comfort during use. It fits comfortably on either knee, making it a versatile choice for anyone with stiff, weak, or injured knees.

Key Features:

- **Moderate compression** for weak, sore, or injured knees
- **Three adjustable straps** for a secure and customized fit
- **Open kneecap design** for added support and comfort
- Flexible materials for a **full range of motion** and ergonomic comfort
- **Neoprene blend** provides soothing heat retention
- **Versatile wear** for left or right knee
- Ideal for athletic activities or general knee support

Support Level: Moderate

Ideal For: General support, athletic activities, and knee injuries

Composition: Neoprene blend, Polyester, Nylon, Spandex

Size: Adjustable

Color: Black

Caution: Some individuals may be sensitive to neoprene or neoprene-blend rubber. If a rash develops, discontinue use and contact a physician.

FUTURO™ Sport Ankle Support

Stay active and keep moving with the Sport Ankle Support, designed to provide moderate support and comfort for stiff, sore, or injured ankles. Crafted from a durable neoprene blend, this ankle support retains soothing heat while delivering customizable compression. Its easy-to-use wraparound design allows you to adjust the fit for optimal comfort and stability, helping you stay in the game during sports, workouts, or everyday activities.

The heel loop makes it easy to put on and take off, while the versatile design allows you to wear the support on either ankle. The Sport Ankle Support is perfect for athletes or anyone seeking relief and additional support for ankle injuries or discomfort. With its durable materials and customizable fit, this support provides the stability you need while allowing for a natural range of motion.

Key Features:

- Moderate support with adjustable straps for customizable compression and support
- Helps relieve and support stiff, sore, or injured ankles
- Provides soothing heat retention for added comfort
- Easy-to-use wraparound design for a personalized fit
- Heel loop for easy application and removal
- Fits comfortably with a variety of footwear
- Wear on either ankle for versatility and convenience

Support Level: Moderate

Ideal For: General support, athletic activities, minor ankle injuries

Composition: Neoprene blend, Polyester, Nylon

Size: Adjustable

Color: Black

Caution: Some individuals may be sensitive to neoprene or neoprene-blend rubber. If a rash develops, discontinue use.

FUTURO™ Sport Wrist Support

Stay in the game and keep moving with the Sport Wrist Support. Perfect for athletes or anyone experiencing a minor wrist injury, this adjustable wrist brace offers moderate support and customizable compression to help protect and stabilize your wrist. Designed to provide relief during activities like tennis, gym workouts, or general daily use, the Sport Wrist Support wraps your wrist in durable neoprene that provides heat retention to your injury while ensuring comfort.

The thumb loop makes it easy to put on and take off, while the adjustable design allows for a personalized fit that ensures optimal support. With a versatile design, this wrist support can be worn on either wrist, providing convenience and lasting use. Whether you're recovering from a minor strain or need extra stability during athletic activities, the FUTURO™ Sport Wrist Support helps keep you moving without slowing you down.

Key Features:

- Moderate support with customizable compression for a secure fit
- Adjustable design ensures a personalized fit and optimal support
- Allows your fingers to move naturally for ease of use during activities

- Wear on either wrist for versatility and convenience
- Made from a comfortable neoprene blend material that provides warmth and support
- Easy-to-use wrap-around design with a thumb loop for quick application

Support Level: Moderate

Ideal For: General support, athletic activities, minor wrist injuries

Composition: Neoprene blend, Polyester, Nylon

Size: Adjustable

Color: Black

Caution: Some individuals may be sensitive to neoprene or neoprene-blend rubber. If a rash develops, discontinue use and contact a physician.

FUTURO™ Sport Elbow Support

Stay in the game and keep your training on track with the Sport Elbow Support. Whether you're hitting the tennis court, practicing your golf swing, or simply need extra support during your daily activities, this adjustable elbow brace is designed to provide moderate support to help relieve soreness and discomfort. The neoprene blend material delivers comfortable compression that hugs the arm, promoting recovery.

With adjustable straps for a customized fit, this elbow support is built to stay in place during activity, ensuring you get the right level of support. The flexible materials allow for a full range of motion, so you can continue your exercises or sports without restriction. Designed to fit both left and right elbows, this versatile support is ideal for those with stiff, weak, or injured elbows looking to stay active.

Key Features:

- Moderate support for weak, sore, or injured elbows
- **Adjustable straps** for a personalized, secure fit
- **Neoprene blend material** provides comfort and effective support
- Flexible fabric promotes a **full range of motion**, perfect for sports and daily activities
- Wear on either arm for added versatility
- Ideal for conditions such as tennis elbow, golfer's elbow, or general elbow discomfort

Support Level: Moderate

Ideal For: General support, athletic activities, and elbow injuries

Composition: Neoprene blend, Polyester, Nylon

Size: Adjustable

Color: Black

Caution: Some individuals may be sensitive to neoprene or neoprene-blend rubber. If a rash develops, discontinue use

FUTURO™ Sport Tennis Elbow Strap

Get back in the game with the Sport Tennis Elbow Strap. Whether you're an avid tennis player or simply dealing with the discomfort of tendonitis from repetitive motion, this adjustable strap offers firm, stabilizing support to your elbow. The tendon pad applies gentle, targeted pressure on the tendons to help relieve pain and reduce the symptoms associated with tennis elbow and similar injuries.

Designed to fit comfortably on either arm, this strap's adjustable design ensures a customizable fit, providing optimal compression where you need it most. With breathable materials, it helps keep you cool while providing support throughout your daily activities or athletic endeavors.

Key Features:

- **Moderate support** for weak, sore, or injured tendons
- **Tendon pad** applies zoned pressure to help relieve symptoms of tendonitis, tennis elbow, and repetitive motion
- **Adjustable strap** for a secure, personalized fit
- **Breathable materials** help keep you cool during use
- Wear on either arm for versatility and comfort
- Ideal for conditions such as tennis elbow, tendonitis, and repetitive motion injuries

Support Level: Firm

Ideal For: Tennis elbow, tendonitis, repetitive motion activities

Composition: Nylon, Polyurethane, Acetal, Polyester

Size: Adjustable

Color: Black

FUTURO™ Knee Strap

Designed for active individuals dealing with Runner's Knee or other knee tendonitis, the Knee Strap offers targeted relief for your injured tendon. Featuring a reinforced gel center pad, this strap applies moderate pressure to the patella tendon, helping to relieve symptoms of patella tendonitis and Jumper's Knee. Its unique design also includes outer pads that improve patellar tracking, providing additional support as you move.

The adjustable hook-and-loop closure ensures a custom, comfortable fit for all-day wear, while the breathable material keeps you cool and dry during your activities. With its low-profile design, this knee strap fits smoothly around your knee, so you can focus on your workout, whether you're on the treadmill, track, or trail.

Perfect for anyone suffering from knee tendonitis, Runner's Knee, or patellar tracking issues, the Knee Strap is a lightweight, reliable solution to keep you moving without discomfort. Supported by expert engineers and medical professionals, this strap is the relief you can trust.

Key Features:

- Center pad delivers moderate pressure to help relieve patella tendonitis symptoms
- Outer pads assist in improving patellar tracking
- Adjustable hook-and-loop design for a customizable, secure fit
- Breathable materials release excess heat for cooling comfort
- Low-profile design fits smoothly around your knee for all-day wear
- Ideal for conditions like **Runner's Knee**, **Jumper's Knee**, and general knee tendonitis
- Fits left or right knee

Support Level: Moderate

Ideal For: Knee tendonitis, Runner's Knee, Jumper's Knee, patellar tracking issues

Composition: Nylon, Polyester, Polyurethane, Thermoplastic Elastomer, POM, Spandex, Polypropylene, Polyethylene

Size: Adjustable

Color: Black

FUTURO™ Performance Knee Stabilizer

Whether you're cycling, playing tennis, or working out, the Performance Knee Support is designed to help you stay active and perform at your best. This knee brace offers moderate support with a unique blend of materials that provide both flexibility and soothing warmth, while allowing moisture to escape for breathable comfort.

The dual-strap precision closure ensures a customized fit, and its contoured sleeve design promotes a full range of motion, so you can move naturally without feeling restricted. The open patella design provides additional support and comfort around the kneecap, making it ideal for anyone with stiff, weak, or injured knees. Wearable on either knee, this versatile knee support is backed by a team of expert engineers and medical professionals.

Key Features:

- **Moderate support** for weak, sore, or injured knees
- **Dual precision straps** for a **customizable fit**
- **Contoured sleeve design** allows a full range of motion
- **Open patella** for added comfort and kneecap support
- Breathable materials keep you cool and dry during activity
- **Ideal for active individuals:** Biking, tennis, and general exercise
- **Wear on either knee** for added versatility

Support Level: Moderate

Ideal For: Stiff, weak, and injured knees

Composition: Neoprene blend, polyester, nylon, spandex

Size: S/M/L/XL

Color: Black

Caution: Some individuals may be sensitive to neoprene or neoprene-blend rubber. If a rash develops, discontinue use

FUTURO™ Performance Ankle Stabilizer

When it comes to ankle support, the Performance Ankle Stabilizer is built to deliver the strength and stability you need to keep performing at your best. Designed with firm side stabilizers to prevent lateral movement, this ankle brace helps protect against sprains, strains, and re-injury, so you can stay active on the court, at the gym, or wherever your fitness takes you. Its adjustable straps offer a customizable fit, providing lift and support around your arch to ensure comfort and optimal performance.

The breathable, moisture-wicking materials allow air to circulate, keeping your skin dry even during intense activities. Whether you're recovering from an injury or looking for added stability during athletic activities, the Performance Ankle Stabilizer has got you covered. Its convenient design can be worn on either ankle and fits comfortably with a variety of footwear, making it a versatile addition to your active lifestyle.

Key Features:

- **Moderate-stabilizing design** offers customizable compression and support
- **Side stabilizers** limit lateral movement and prevent ankle rolling
- **Adjustable straps** provide a secure, custom fit
- **Breathable, moisture-wicking materials** keep skin dry and comfortable
- **Lift and support around your arch** for additional comfort and stability
- Fits comfortably inside a variety of footwear
- **Wear on either ankle** for added versatility
- Ideal for supporting stiff, sore, or injured ankles during physical activity

Support Level: Moderate to Firm

Ideal For: Sprains, strains, and general ankle stability during sports or exercise

Composition: Polyethylene, polyurethane, nylon, polyester, spandex

Size: Adjustable

Color: Black

Caution: Some individuals may be sensitive to neoprene or neoprene-blend rubber. If a rash develops, discontinue use and contact a physician.

FUTURO™ Performance Ankle Support

Stay in the game and keep moving with the Performance Ankle Support. Designed for active individuals, this ankle brace provides moderate compression and customizable support, helping to soothe and stabilize stiff, sore, or injured ankles. The dual-strap design allows you to adjust the level of

compression, offering personalized lift and support around your arch.

With breathable, moisture-wicking construction, this ankle support ensures that your skin stays dry and comfortable while you stay active. It's easy to put on, fits a variety of footwear, and can be worn on either ankle for versatility. Whether you're playing sports or going about your day, the Performance Ankle Support helps keep you moving without missing a beat.

Key Features:

- **Moderate compression** for support of stiff, sore, or injured ankles
- **Dual-strap design** for adjustable compression and lift around your arch
- **Breathable, moisture-wicking materials** keep your skin dry and cool
- Wear on either ankle for **versatility**
- Ideal for **athletic activities**, or daily use for ankle support
- Fits comfortably with a variety of footwear
- Can be worn with a sock underneath for added comfort

Support Level: Moderate

Ideal For: Stiff, sore, or injured ankles

Composition: Neoprene blend, polyester, nylon, spandex

Size: Adjustable

FUTURO™ For Her Ankle Support, S/M

The For Her Wrap Around Ankle Support is designed to provide targeted relief with a perfect fit for active women. Whether you're walking, running, or working out, this ankle support offers customizable compression to help with sprains, ankle instability, and overuse. The adjustable strap ensures a personalized fit, and the breathable material keeps your skin dry, even during intense workouts or outdoor adventures.

This ankle brace wraps comfortably around your ankle for easy application and removal, fitting seamlessly into your shoes. Its slim silhouette contours to the natural curves of your foot and ankle for a sleek, supportive feel. Designed by women, for women, the FUTURO™ for Her Wrap Around Ankle Support offers the relief you need to keep moving with confidence.

- Provides moderate support with customizable compression
- Ideal for sprains, ankle instability, and overuse symptoms

- Contoured design fits the natural curves of a woman's foot and ankle
- Breathable material helps keep skin dry and comfortable
- Adjustable strap for a personalized fit
- Compatible with a variety of footwear
- Designed to fit both left and right ankles
- Color: Gray

CAUTION: This Product Contains Natural Rubber Latex Which May Cause Allergic Reactions.

Stay active, stay comfortable, and trust in the For Her Wrap Around Ankle Support to keep you moving forward.

FUTURO™ For Her Wrist Brace

The For Her Wrist Brace is designed to provide comfortable support for weak or injured wrists, allowing you to stay active while healing. The contoured design ensures a perfect fit that follows the natural curves of a woman's wrist, offering targeted relief where you need it most. The adjustable strap allows for a customized fit, providing just the right level of support and compression for your wrist.

Ideal for daily wear, this wrist brace helps reduce discomfort from sprains, strains, or repetitive motion injuries. Whether you're typing, lifting, or engaging in other activities, the FUTURO™ for Her Wrist Brace ensures your wrist is supported without sacrificing comfort or mobility.

- Comfortable support for weak or injured wrists
- Contoured design fits the natural curves of a woman's wrist
- Adjustable strap provides a customizable fit and support

Ideal for everyday use or light activities

Moderate support for common injuries such as sprains or strains, and general support.

Made with **Polyurethane, polyester, nylon, and spandex** for durability and comfort.

Stay comfortable and confident with the For Her Wrist Brace, providing the support you need to continue doing what you love.

FUTURO™ For Her Knee Support

The For Her Knee Support is expertly designed to deliver comfortable and effective support for weak or sore knees. This knee brace helps relieve discomfort associated with strains, sprains, and other knee injuries. Featuring spiral stabilizers for enhanced stability and plush gel cushioning around the kneecap, this support provides targeted relief and comfort when you need it most. The lightweight fabric ensures all-day comfort, allowing you to stay active while protecting your knee.

Designed by women for women, this knee support offers a contoured fit that accommodates the natural curves of your leg. With adjustable straps, you can achieve a customized fit for optimal compression and support. The easy-to-use sleeve design makes putting on and taking off the brace a breeze, helping you focus on your daily activities without the hassle.

- Provides moderate compression and stability to the knee
- Relieves symptoms from knee strains, sprains, and injuries
- Dual-spiral stabilizers provide medial and lateral support
- Patella gel pad enhances comfort around the kneecap
- Contoured fit designed for women
- Adjustable straps for a personalized fit
- Lightweight and breathable fabric for all-day comfort
- Fits left or right knee

Moderate support for common injuries like sprains or strains and general knee support.

Made with **Polyurethane, polyester, steel, nylon, silicone, and spandex** for comfort and durability.

The For Her Knee Support is the perfect companion to keep you moving comfortably, helping you stay active and injury-free.

FUTURO™ For Her Back Support

Designed specifically with women in mind, the For Her Slim Silhouette Back Support offers targeted relief and support for your lower back and abdomen. Whether you're dealing with back pain from everyday activities or need extra stability, this back brace contours to the natural curves of your body, providing the moderate support you need to stay active and comfortable.

With its customizable fit, adjustable straps allow for personalized compression and comfort, ensuring it works perfectly for your needs. The internal stays provide additional support, while the breathable, low-profile design helps keep you cool and dry throughout the day. This back support fits discreetly under clothing, allowing you to wear it with confidence while continuing with your daily routine.

- Offers moderate support and compression to the lower back and abdomen
- Adjustable straps for a personalized fit and optimal comfort
- Contoured to fit the natural curves of a woman's back
- Breathable materials enhance airflow and keep your skin dry
- Low-profile design fits discreetly under clothing
- Anatomical design allows for full range of motion
- Internal stays for added support
- Easy-to-use design for hassle-free relief
- Size: Adjustable
- Color: Gray

Moderate support for core stabilization during everyday activities.

Made with **Polyester, nylon, polyurethane, polypropylene, POM, spandex, and rubber** for comfort and durability.

The For Her Back Support is your go-to solution for relieving back pain and offering the support you need, while keeping you comfortable and active throughout the day.

FUTURO™ Posture Corrector

Take control of your posture with the Posture Corrector, designed to gently pull your shoulders back and promote a more confident, upright posture. Crafted from lightweight, breathable materials, this corrector offers comfort while remaining discreet under clothing. The easy-to-wear design slips on like a backpack and is fully adjustable to provide a personalized fit that supports your back throughout the day.

The stretchy neoprene materials contour to your body for a sleek, streamlined look, and the repositionable back buckle pad allows for an enhanced, secure fit. Whether you're at your desk, on your feet, or relaxing at home, the Posture Corrector is engineered to support your posture and reduce back pain.

Wear it next to the skin or over a lightweight shirt for added comfort.

Key Features:

- Gently stretches chest and shoulder muscles to promote better posture
- Fully adjustable shoulder straps provide a customizable fit for all-day comfort
- Hook-and-loop straps ensure a secure fit, while the repositionable back buckle pad enhances fit
- Stretchy neoprene materials contour to the body for a streamlined look under clothing
- Easy-on, easy-off design slips on like a backpack
- Can be worn next to skin or over a lightweight, fitted t-shirt or shirt
- Free from natural rubber latex
- Designed for men and women

Material: Neoprene, Nylon, Polyester, Spandex

Size: One Size - Adjustable

Color: Black

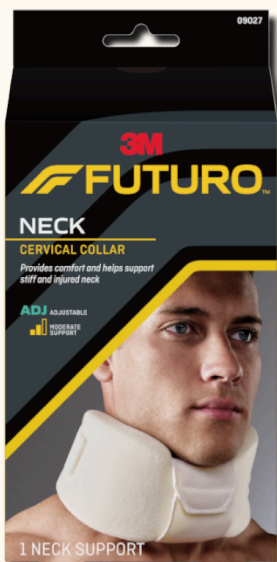

Product Type: Postural Support Device, Support

Support Level: Moderate

Ideal For: Back pain, posture improvement, moderate/occasional back pain, post-surgery recovery, and general support during daily activities.

Improve your posture and reduce back pain with the Posture Corrector, engineered for both comfort and effectiveness, whether at work or at home.

FUTURO™ Cervical Collar

Recovering from a neck injury can be challenging, but the Cervical Collar helps you get back to feeling like yourself with the support you need. Whether you're dealing with whiplash, mild neck pain, or stiffness, this cervical collar offers moderate support to relieve discomfort and promote healing.

Crafted from plush foam, the collar strikes the perfect balance between firm support and soothing comfort. The adjustable chin strap allows you to personalize the collar's height, while the adjustable circumference ensures a snug, custom fit around your neck. Soft knit material covers the brace, enhancing comfort by feeling smooth against your skin, and

the breathable design helps keep you cool, even during extended wear.

Designed for both day and night use, this cervical collar is a reliable choice for providing relief from pinched nerves, neck tightness, or post-injury recovery. Whether you've suffered an accident or just need extra support for your neck, trust the Cervical Collar to get you on the path to recovery.

Key Features:

- Provides moderate support for neck injuries such as whiplash, pinched nerves, or mild neck pain
- Adjustable chin strap and circumference for a personalized fit
- Soft, smooth knit material for enhanced comfort
- Breathable design helps maintain a cool, comfortable feel
- Ideal for day or night use
- Size: Adjustable
- Color: White

Material: Polyurethane, modal acrylic, nylon, cotton, polyester

Reclaim your comfort and support with the Cervical Collar –

FUTURO™ Compression Glove

The Compression Glove is designed to provide soothing support to your hand and wrist, so you can keep doing what you love—whether it's working, exercising, or handling everyday tasks. This glove offers mild compression and 360 degrees of support around your wrist, helping to alleviate discomfort from aching or weak hands.

Crafted from soft, breathable materials, the glove is comfortable for all-day wear, keeping you cool and at ease. The adjustable wrap ensures a snug, customized fit, while the glove's design allows for a full range of motion, so you can continue with your activities without restriction. The versatile design fits either hand, making it ideal for left or right-hand use.

Supported by a panel of expert engineers and medical professionals, the Compression Glove is the perfect solution for mild support during your daily routine.

Key Features:

- Provides mild support to aching, weak, or swollen hands and wrists
- Adjustable wraparound strap for a personalized fit
- Soft, breathable materials enhance comfort and flexibility
- Easy on, easy off design for convenience
- Fits either hand for versatility
- Designed for all-day wear
- Size: S/M, L/XL
- Color: Beige

Material: Nylon, polyester, spandex

Experience the reliable comfort and support of the Compression Glove, and take control of your day with confidence.

FUTURO™ Comfort Stabilizing Wrist Brace

When wrist discomfort slows you down, the Comfort Stabilizing Wrist Brace is here to provide the support you need. Whether you're dealing with a sprain from an active workout or the lingering effects of an old injury, this wrist brace offers moderate-stabilizing support to help you get back on track.

The ergonomic design features a palmar stay to enhance support, while the breathable, lightweight materials keep you comfortable throughout the day. With a convenient sleeve design and three adjustable straps, you can customize the fit for the right amount of support, ensuring a secure and comfortable feel. The low-cut design also allows for natural finger movement, so you can maintain full mobility for everyday tasks. Plus, the brace is versatile, fitting either wrist for your convenience.

Supported by experts in engineering and medical fields, the Comfort Stabilizing Wrist Brace offers effective relief for wrist injuries like sprains, strains, or the symptoms of Carpal Tunnel Syndrome.

Key Features:

- Provides moderate-stabilizing support to sore, weak, or injured wrists
- Low-cut, ergonomic design for free finger movement
- Palmar stabilizer offers extra support and stability
- Three adjustable straps with hook-and-loop closure for a custom fit
- Easy-to-use sleeve design for quick and easy wear

- Fits left or right wrist for versatile use
- Size: Adjustable
- Color: Black and Gray

Material: Aluminum, polyester, polyurethane, nylon, spandex

Restore confidence in your wrist's support and mobility with the Comfort Stabilizing Wrist Brace. Get back to your routine with comfort and stability at your side.

FUTURO™ Deluxe Thumb Stabilizer

When your thumb is sore or injured, it can make even the simplest tasks feel impossible. The Deluxe Thumb Stabilizer is designed to provide essential support to your thumb, allowing you to focus on what matters—whether that's texting, gaming, or enjoying your favorite hobbies.

Featuring two reinforced stabilizers, this thumb stabilizer offers moderate support to stabilize your thumb's lower joints, helping to reduce discomfort and improve mobility. The ergonomic design allows for free movement of the remaining fingers, ensuring you maintain full dexterity for everyday activities. The durable lacing system is easy to adjust for a snug, customized fit, while the soft, breathable materials keep you comfortable throughout the day. Its convenient design can be worn on either hand, making it versatile and practical.

Whether you're recovering from an injury or simply need extra support, the Deluxe Thumb Stabilizer offers the relief you need to keep going.

Key Features:

- Provides moderate support to aching, sore, or weak thumbs
- Stabilizes the lower thumb joints for added stability
- Two reinforced stabilizers help ensure reliable support
- Low-profile design allows for free movement of the remaining fingers
- Easy-to-use lacing system for quick application and adjustability
- Soft, breathable materials enhance comfort for all-day wear
- Fits left or right hand for versatility
- Size: S/M, L/XL
- Color: Black

Material: Nylon, polyurethane, polyester, POM, PVC, rayon, spandex, steel

With the Deluxe Thumb Stabilizer, you can enjoy the support you need to tackle everyday tasks and get back to your routine with confidence.

FUTURO™ Comfort Stabilizing Back Brace

Experience the support and comfort you need for a more active, pain-free day with the Comfort Stabilizing Back Brace. Whether you're running, working out, or going about your daily activities, this back support offers the firm stability your back needs while allowing for natural movement.

Designed with adjustable straps, this support lets you personalize the fit and level of compression to your exact specifications. The breathable materials help release excess heat and moisture, keeping your skin dry and comfortable all day long. Its anatomical design ensures you maintain a natural range of motion, while the back panel evenly distributes support, providing relief to stiff, strained, or aching backs without placing pressure on the spine.

The Comfort Stabilizing Back Brace is ideal for those looking to maintain an active lifestyle while relieving discomfort from muscle strain or poor posture.

Key Features:

- Provides firm support with customizable levels of compression
- Adjustable straps ensure a personalized, secure fit
- Breathable materials enhance airflow to keep your skin dry
- Anatomical design allows for natural range of motion
- Back panel evenly distributes support across the lower back
- Ideal for walking, low-impact activities, and improving posture
- Size: S/M, L/XL
- Color: Grey

Material: Polyester, nylon, polyurethane, spandex, fiberboard, acrylic

Maintain your active lifestyle and keep moving with the Comfort Stabilizing Back Brace—designed to keep you comfortable, supported, and pain-free.

FUTURO™ Therapeutic Arch Support

Say goodbye to arch pain and hello to relief with the Therapeutic Arch Support. Whether you're dealing with plantar fasciitis or general foot discomfort, this arch support is designed to provide the moderate support and cushioning your feet need to keep moving. Featuring removable inserts, this support allows you to customize the level of support and compression, ensuring comfort throughout your day.

Crafted from soft, stretchy fabric, the support offers a custom fit that conforms to your foot's unique shape. Its breathable materials help keep your skin dry and comfortable, and the low-profile design makes it compatible with most footwear. The Therapeutic Arch Support can be worn with or without shoes, offering versatile comfort for all-day wear.

Ideal for providing relief during athletic activities or everyday movements, this arch support is backed by medical professionals to help alleviate heel, foot, and arch pain.

Key Features:

- Provides moderate support to relieve heel, foot, and arch pain, including symptoms of plantar fasciitis
- Two removable inserts offer customizable support and cushioning
- Low-profile design fits comfortably with or without shoes and socks
- Soft, stretchy fabric ensures a custom fit for all-day comfort
- Breathable materials help keep skin dry
- Designed for use on both feet to support proper body alignment
- Size: Adjustable
- Color: Black

Material: Thermoplastic elastomer, polypropylene, nylon, polyester, polyurethane, spandex

Ideal for: Daytime support during athletic activities and everyday use

Take the proactive approach to foot pain relief with the Therapeutic Arch Support. Keep moving, stay active, and enjoy every step you take.

FUTURO™ Abdominal Compression Support

Regain your strength and comfort after surgery with the Abdominal Compression Support. Designed to offer moderate support, this surgical binder helps relieve symptoms of post-surgery discomfort and muscle pain, making it easier for you to stay active and get back to your routine.

Made from durable dual-stretch fabric, the abdominal support features hook-and-loop fasteners, allowing for a fully customizable fit. The contoured, anatomical design hugs your body for all-day comfort, while the flexible front panel ensures the support moves with you. Its plush lining provides a smooth feel against the skin, and its low-profile design allows you to wear it discreetly under clothing.

Ideal for lifting and trimming the abdomen, this support provides the relief you need while helping you recover with confidence. Whether you're healing from surgery or managing muscle pain, the Abdominal Compression Support helps you stay on track.

Key Features:

- Moderate support and customizable compression for post-surgery relief
- Hook-and-loop fasteners offer a secure and personalized fit
- Lifts and trims the abdomen for comfortable support
- Contoured, tapered, wraparound design for a great fit
- Plush lining feels soft and smooth against your skin
- Low-profile design fits discreetly under clothing
- Size: M, L
- Color: White

Material: Polyester, nylon, spandex, cotton, polyurethane

Ideal for: Post-surgery core support

Choose the Abdominal Compression Support for relief and comfort as you recover and get back to your best self.

FUTURO™ Deluxe Wrist Stabilizer

Find relief from wrist pain with the Deluxe Wrist Stabilizer, designed to provide superior support for conditions such as Carpal Tunnel Syndrome, tendonitis, sprains, and repetitive

stress injuries. This wrist stabilizer features a palmar stabilizer that allows for a custom fit and added support, while the dorsal (top of hand) stabilizers provide additional stabilization to help minimize movement and aid in recovery.

The ergonomic design ensures full range of motion for your fingers, making it ideal for everyday activities. A foam pad in the palm offers extra comfort, and the three adjustable straps ensure a secure, personalized fit. The longer length on the forearm provides maximum support for your wrist, helping you get back to the activities you enjoy most.

Whether you're recovering from an injury or seeking relief from chronic wrist conditions, the Deluxe Wrist Stabilizer offers the stabilizing comfort you need to support your wrist throughout the day.

Key Features:

- Palmar stabilizer and dorsal stabilizers for customizable support and added stabilization
- Foam pad in the palm for comfort during use
- Three adjustable straps for a secure, personalized fit
- Longer forearm length for maximum support
- Easy-Sleeve design makes it easy to put on and take off
- Ergonomic design allows full range of motion in fingers
- Provides firm, stabilizing support for a range of wrist conditions
- Fits left and right wrists

Material: Aluminum, Nylon, Polyester, Polypropylene, Polyurethane, Spandex

Size Options:

- Left Hand (LH)
- Right Hand (RH)

Color: Gray

Support Level: Firm, Stabilizing

Ideal For: Carpal Tunnel Syndrome, tendonitis, sprains, arthritis, repetitive stress injuries, and general wrist support

Use: Perfect for providing support during strong activity, general athletic support, moderate pain relief, recovery post-cast, and prevention of further injury.

With its adjustable design and durable construction, the Deluxe Wrist Stabilizer helps you stay active and pain-free as

you recover and strengthen your wrist.

FUTURO™ Night Wrist Sleep Support

The Night Wrist Sleep Support is designed to provide moderate support and stabilization for wrist conditions during sleep, offering relief from Carpal Tunnel Syndrome, tendonitis, sprains, and other wrist-related pain. This wrist support helps keep your wrist in a neutral position to alleviate symptoms while you sleep, promoting recovery and reducing discomfort overnight.

Constructed with durable materials like aluminum, nylon, and polyurethane foam, the Night Wrist Sleep Support features palmar and dorsal stabilizers for custom support. The ergonomic design ensures a comfortable fit, and a foam pad in the palm adds extra cushioning. Its adjustable design fits wrist sizes from 5.25" to 9", offering versatile support for various wrist sizes.

Ideal for use at night, the Night Wrist Sleep Support helps prevent wrist pain from disrupting your sleep, while promoting healing and reducing morning stiffness.

Key Features:

- Palmar and dorsal stabilizers provide customizable support to alleviate pain
- Foam pad in the palm offers additional comfort while sleeping
 - Keeps wrist in a neutral position to reduce symptoms of Carpal Tunnel Syndrome and other conditions
- Ergonomic design allows for natural finger movement
- Soft, breathable materials for comfort during overnight wear
- Designed for nighttime use to relieve discomfort during sleep

Material: Aluminum, Nylon, Polyester, Polystyrene, Polyurethane Foam, Spandex

Size Options: One Size - Adjustable

Color: Blue

Support Level: Moderate

Ideal For: Carpal Tunnel Syndrome, tendonitis, sprains, strains, arthritis, repetitive stress injuries, and moderate pain relief during sleep.

Use: Perfect for night time relief of wrist pain, recovery from wrist injuries, and reducing symptoms of Carpal Tunnel Syndrome while sleeping.

Get a restful night's sleep and promote wrist recovery with the Night Wrist Sleep Support, the ideal solution for overnight wrist stabilization and pain relief.

FUTURO™ Night Plantar Fasciitis feet Support

When plantar fasciitis pain keeps you from doing the things you love, effective overnight recovery is essential. The Night Plantar Fasciitis feet Support is designed to comfortably and securely hold your foot in the recommended therapeutic position while you sleep, helping to relieve symptoms and promote healing by morning.

This supportive brace features a durable, cushioned design and soft, breathable materials that wick moisture to keep your foot cool and comfortable throughout the night. The adjustable hook-tab fasteners and flexible foot strap allow for a custom, secure fit, while the low-profile design ensures minimal distraction as you fall asleep. Its soft, smooth edges enhance comfort, making it suitable for long-term nightly use.

KEY FEATURES:

- **Therapeutic Support:** Helps relieve symptoms associated with plantar fasciitis by stabilizing the foot in the proper position overnight
- **Custom Fit:** Adjustable foot strap and hook-tab fasteners for a secure and comfortable fit
- **Breathable Materials:** Moisture-wicking, soft straps keep you cool and dry
- **All-Night Comfort:** Durable cushioned base with smooth, flexible edges for comfort while sleeping
- **Convenient & Versatile:** Low-profile design fits either the right or left foot
- **Expertly Designed:** Developed with input from engineers and medical professionals

SPECIFICATIONS:

- **Support Level:** Firm-Stabilizing
- **Size:** Adjustable
- **Color:** Navy

- **Materials:** Polypropylene, Polyethylene, Nylon, Polyurethane, Thermoplastic Elastomer (TPE)
- **Use For:** Plantar fasciitis, foot pain, arch & heel support, strains, arthritis, and pinched nerves

Take the first step toward morning relief with Night Plantar Fasciitis feet Support—engineered for recovery, designed for comfort.

FUTURO™ Stirrup Ankle Brace

The Stirrup Ankle Brace is designed to provide firm, rigid support and protection for your ankle, especially following a moderate-to-severe injury or post-cast treatment. Whether recovering from a sprain, strain, or dealing with a weak ankle, this brace helps limit lateral motion to promote healing and prevent further injury.

The anatomically designed shells of the brace help stabilize the ankle, and the soft-edge design ensures added comfort when wearing it inside a shoe. Pre-inflated, adjustable air cells improve the fit and comfort, while the adjustable heel strap accommodates all foot sizes. The wraparound style makes it easy to put on and take off, and it can be worn on either the left or right ankle for versatile use.

Key Features:

- Anatomically designed shells limit lateral motion, helping with recovery after acute injuries or post-cast treatment
- Soft-edge design provides extra comfort inside your shoe
- Pre-inflated, adjustable air cells for improved fit and comfort
- Adjustable heel strap fits all foot sizes for a secure and personalized fit
- Wraparound style is easy to put on and take off
- Suitable for both left and right ankles
- Provides firm support for weak ankles, sprains, and strains

Material: Nylon, Polyethylene, Polypropylene, Polyurethane, Thermoplastic Elastomer (TPE)

Size Options: One Size - Adjustable

Color: Black

Support Level: Firm

Ideal For: Sprains, strains, moderate-to-severe ankle injuries, post-cast treatment, and weak ankles.

Use: Ideal for supporting the ankle during recovery from sprains, strains, or post-cast rehabilitation. Helps prevent further injury and provides stability during daily activities.

Protect and support your ankle with the Stirrup Ankle Brace, engineered to help you recover with comfort and confidence.

FUTURO™ Arm Sling

When you're on the mend, the Adult Pouch Arm Sling provides the gentle support you need to keep your arm in the optimal position for recovery. Designed to minimize motion, this arm sling is ideal for sprains, post-surgery recovery, or general arm support, offering mild support and reducing strain on your injured arm.

Crafted with breathable materials, the arm sling helps keep your skin dry and comfortable throughout the day. The cradling pouch design helps take weight off your arm, reducing fatigue while supporting proper arm alignment. A comfort pad cushions the shoulder, offering extra relief as you heal. The adjustable strap ensures a personalized fit, while the quick-release buckle allows for easy on and off with just one hand, making it convenient for everyday use.

The Arm Sling can be worn on either arm and is perfect for providing support during recovery from broken bones, sprains, or surgery.

Key Features:

- Provides mild support to minimize motion and aid recovery
- Cradle design helps reduce arm fatigue by taking the weight off
- Breathable materials enhance airflow to keep skin dry
- Comfort pad cushions the shoulder for added comfort
- One-hand, quick-release buckle for easy on and off
- Adjustable strap for a personalized fit
- Can be worn on either arm
- Size: Adjustable
- Color: Gray

Material: Polyester, POM, cotton, PVC, polyurethane

Ideal for: Recovery from sprains, surgery, broken bones, or general arm support

Stay comfortable and supported throughout your recovery with the Arm Sling, and get back to your everyday activities with ease.

TULI'S®

Tuli's Classic Heel Cups

Everyday comfort | Shock absorption | Natural support and alignment

Tuli's® Classic® Heel Cups are trusted worldwide—sold in over 70 countries—for their reliable and effective heel support. Designed to mimic the body's natural shock-absorbing system, the multi-cell, multi-layer construction helps cushion impact and return energy with every step.

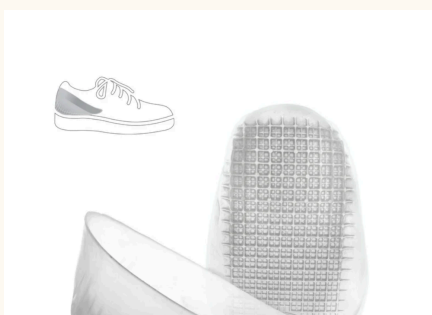

Perfect for everyday use, these heel cups reduce pressure on the heel, Achilles tendon, plantar fascia, knees, and shins. They elevate the heel bone and help promote proper alignment from the feet up—supporting better balance, stability, and posture throughout the day.

Made from high-quality, latex-free materials, Tuli's® Classic® Heel Cups are flexible enough to fit inside most closed shoes while providing durable, all-day comfort.

KEY FEATURES:

- **Everyday Relief:** Ideal for use in casual and work shoes
- **Shock Absorption:** Bio-mechanical design reduces impact stress
- **Cushioning & Elevation:** Helps reduce pressure on heels and lower limbs
- **Promotes Alignment:** Supports proper posture from feet to back
- **Durable Materials:** Built for long-term comfort and performance
- **Latex-Free | Made in the USA**
- **Use For:** Plantar fasciitis, heel pain, Achilles tendonitis, knee/shin discomfort, daily support

Experience trusted comfort and support with **Tuli's® Classic® Heel Cups**—designed for everyday protection and biomechanical performance.

Tuli's Classic GEL Heel Cups

Lightweight comfort | Advanced gel cushioning | Everyday heel pain relief

Tuli's® Classic® GEL Heel Cups are engineered to deliver advanced shock absorption and heel pain relief using a bio-

mechanical design that mimics the body's natural cushioning system. Recommended by podiatrists worldwide, they help reduce pressure on the heel and Achilles tendon, making them ideal for managing plantar fasciitis and general heel discomfort.

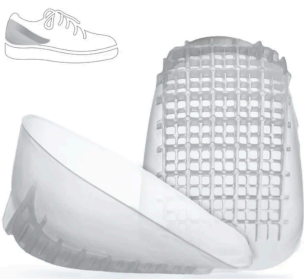

Constructed with proprietary TuliGEL™—a soft, resilient gel compound—these heel cups are lighter and more comfortable than traditional gel inserts. Their multi-cell, multi-layer structure compresses and flexes with each step, effectively absorbing impact and returning energy for enhanced comfort throughout the day.

Designed to fit comfortably in most closed footwear, the Classic GEL Heel Cups are suitable for everyday wear, offering stability and alignment support for your feet, knees, hips, and back.

KEY FEATURES:

- **Soft, Lightweight TuliGEL™ Construction:** Offers excellent shock absorption and enhanced comfort
- **Bio-Mechanical Design:** Helps reduce stress on heels, tendons, and joints
- **Immediate Heel Pain Relief:** Cushions the heel and supports the Achilles tendon
- **Promotes Proper Alignment:** Helps improve stability from foot to back
- **Flexible Fit:** Suitable for most shoe types
- **Use For:** Plantar fasciitis, heel pain, Achilles tendonitis, and daily support
- **Latex-Free | Made in the USA**

Experience a new level of comfort and support with **Tuli's® Classic® GEL Heel Cups**—engineered for performance, trusted for relief.

Tuli's Heavy Duty GEL Heel

Maximum protection | Advanced GEL support | Ultimate heel pain relief

Tuli's® Heavy Duty GEL Heel Cups are designed to provide enhanced cushioning and shock absorption for active individuals or those experiencing chronic heel pain.

Engineered with a bio-mechanical multi-cell, multi-layer design, they replicate the natural shock-absorbing system of

the feet—effectively reducing impact and redistributing pressure during walking, running, or standing.

The added thickness and structure of the **Heavy Duty** version offer superior support, making them ideal for high-impact activities and prolonged wear. These heel cups help relieve pressure on the heel bone, Achilles tendon, and plantar fascia, promoting proper alignment from the feet up to the knees, hips, and lower back.

Crafted from **TuliGEL™**, a proprietary material that is softer, lighter, and more resilient than traditional gels, these heel cups deliver long-lasting comfort with a barely-there feel.

KEY FEATURES:

- **Heavy Duty Design:** Provides extra thickness and support for high-impact performance
- **TuliGEL™ Construction:** Lightweight, soft, and highly resilient for enhanced comfort
- **Bio-Mechanical Support:** Absorbs shock and returns impact energy to reduce heel strain
- **Heel Elevation & Cushioning:** Reduces pressure on heels and tendons
- **Promotes Proper Alignment:** Supports natural posture and stability
- **Use For:** Plantar fasciitis, heel pain, Achilles tendonitis, active lifestyles
- **Latex-Free | Made in the USA**

Choose **Tuli's® Heavy Duty GEL Heel Cups** for next-level heel protection, whether you're on your feet all day or pushing your limits in athletic performance.

Tuli's Heavy Duty Heel Cups

Heel pain relief | Shock absorption | Support for plantar fasciitis and more

Tuli's Heavy Duty® Heel Cups are designed to provide strong, reliable relief from heel pain caused by conditions such as plantar fasciitis, Achilles tendonitis, Sever's disease, shin splints, and general heel discomfort. Recommended by podiatrists worldwide, these heel cups act like natural shock absorbers—helping reduce stress on joints and soft tissues during high-impact activity.

Constructed with a multi-cell, multi-layer design, they compress and rotate with your foot's natural movement to absorb shock and return energy for comfort and performance. The Heavy Duty model is twice as thick as the Tuli's Classic® Heel Cups, offering maximum protection and performance during sports and physical activity.

Ideal for use in athletic footwear, cleats, work boots, and lace-up shoes, these heel cups provide immediate cushioning and elevation of the heel bone to help reduce pain and improve alignment.

KEY FEATURES:

- **Maximum Shock Absorption:** Helps reduce pressure on the heel during movement
- **Support for Active Use:** Perfect for sports such as basketball, volleyball, tennis, and soccer
- **Instant Pain Relief:** Cushions sore heels and supports recovery
- **Bio-Mechanical Design:** Mimics the body's natural shock-absorbing system
- **Great for Kids:** Smaller sizes available for children with Sever's disease
- **Durable Construction:** Built from high-performance materials with a lifetime warranty
- **Size Options:** Multiple sizes available for both adults and children
- **Use For:** Plantar fasciitis, Sever's disease, Achilles tendonitis, heel pain, shin splints

Choose **Tuli's Heavy Duty® Heel Cups** for long-lasting heel protection, comfort, and performance—whether you're recovering from injury or staying active.

Tuli's Polar Bear Gel Heel

Targeted Relief | Advanced Shock Absorption | Everyday Comfort

The foot is an intricate structure, expertly designed for balance and mobility. Tuli's® foot care products are scientifically engineered to replicate the foot's natural shock-absorbing system, helping to maintain alignment of the feet, knees, hips, and back for long-term comfort and injury prevention. Built with premium materials and backed by industry-leading

warranties, it's no surprise that **Tuli's® is the #1 Podiatrist-recommended brand worldwide.**

Tuli's® Polar Bear Gel Heel Cups provide targeted relief from heel spurs, plantar fasciitis, and general heel pain.

Incorporating Tuli's® patented **multi-cell “waffle” design**, these heel cups effectively cushion each step while redistributing pressure away from sensitive areas—particularly the heel spur zone. The soft, durable gel construction makes them ideal for a wide range of footwear including dress shoes, casual shoes, and athletic styles.

FEATURES & BENEFITS:

- **Patented Multi-Cell Gel Design:** Mimics the natural cushioning system of the foot for shock absorption and comfort
- **Pressure-Relieving Construction:** Designed specifically to reduce strain on heel spurs and inflamed areas
- **Versatile Fit:** Suitable for use in most types of shoes
- **Premium TuliGel™ Material:** Lightweight, durable, and latex-free
- **Sold as a Pair | Made in the USA**

Experience true heel relief with **Tuli's® Polar Bear Gel Heel Cups**—designed for those who demand comfort without

Tuli's Diamond Back Insoles

Enhanced Arch Support | All-Day Comfort | Shock Absorbing Design

Tuli's® Diamondbacks™ Insoles are designed to transform almost any shoe into a comfortable, supportive fit. Whether you're dealing with tired, aching feet or struggling with fallen arches, these insoles combine targeted support with superior cushioning to help you stay on your feet longer—with less discomfort.

Featuring Tuli's signature **multi-cell gel technology**, Diamondbacks™ effectively absorb shock and return impact energy with every step. The dynamic design collapses and moves with the natural motion of the foot, reducing pressure and fatigue from everyday activities.

Built for both men and women, these insoles are ideal for use in most shoe styles—including casual, dress, and athletic footwear.

KEY FEATURES:

- **Arch Support:** Helps support fallen arches and reduce arch-related foot fatigue
- **Tuli's Multi-Cell Design:** Absorbs shock and redistributes pressure during movement
- **All-Day Comfort:** Cushioned gel layer provides consistent relief from foot strain
- **Versatile Fit:** Suitable for most shoe types
- **Ideal For:** Fallen arches, mild overpronation, general foot support
- **Latex-Free | Sold as a pair**

Step into enhanced comfort and support with **Tuli's® Diamondbacks™ Insoles**—your everyday solution for better-feeling feet.

Tuli's Energy Tracks Gel Insoles

Full-Length Comfort | Enhanced Shock Absorption | Daily Support

The foot is a remarkable structure, expertly designed for balance and mobility. Tuli's® foot care products are engineered to mimic the body's natural shock-absorbing mechanics, ensuring optimal comfort while helping maintain alignment of the feet, knees, hips, and back. Crafted from premium materials and backed by industry-leading warranties, **Tuli's® is the Podiatrist-recommended brand trusted around the world.**

Tuli's® Energy Tracks are full-length insoles that offer superior comfort and shock absorption from heel to toe. Made from **TuliGEL™**, a proprietary material that is lighter, softer, and more resilient than traditional gels, Energy Tracks provide all-day cushioning—whether you're walking, running, or standing for extended periods. The unique waffle design and added thickness in the heel area deliver enhanced protection against heel strike, while elevated medial and lateral edges offer improved foot stability and alignment.

FEATURES & BENEFITS:

- **Full-Length TuliGEL™ Support:** Lightweight and soft for lasting comfort

- **Patented Waffle Design:** Absorbs shock and returns impact energy for superior protection
- **Elevated Edge Support:** Enhances stability and reduces foot fatigue
- **Customizable Fit:** Easily trimmable to your preferred shoe size
- **Perfect for Active or On-Your-Feet-All-Day Lifestyles**
- **Latex-Free | Made in the USA**
- **Sold as a Pair (2 Gel Insoles)**

Whether you're walking the jobsite, working retail, or simply on your feet all day, **Tuli's® EnergyTracks** deliver the comfort.

Tuli's Metatarsal Pad

Targeted Forefoot Relief | Maximum Shock Absorption | Trim-to-Fit Comfort

Tuli's® Metatarsal Cushions are specifically designed to provide superior shock absorption and comfort to the forefoot area, helping to relieve pressure and reduce pain in the ball of the foot. Featuring a combination of Tuli's renowned **multi-cell design** and **TuliGEL™** technology, these cushions offer both cushioning and energy return with every step.

Ideal for individuals experiencing discomfort from prolonged standing, walking, or high-impact activities, these cushions help support proper foot alignment while delivering exceptional underfoot relief.

Thanks to their **non-adhesive design**, Tuli's Metatarsal Cushions stay securely in place without slipping and can be easily transferred between multiple pairs of shoes. The **one-size-fits-all** format includes **trim-to-fit guidelines** to ensure a perfect fit in nearly any type of footwear.

KEY FEATURES:

- **Advanced TuliGEL™ Construction:** Lightweight, soft, and resilient for long-lasting comfort
- **Multi-Cell Shock-Absorbing Design:** Mimics the natural cushioning system of the foot
- **No Adhesive Required:** Remains in place and easily removable
- **Trim-to-Fit Customization:** One size fits most shoes with simple size adjustments
- **Ideal For:** Forefoot pain, metatarsalgia, general ball-of-foot support

- **Latex-Free | Sold as a pair**

Enjoy enhanced comfort with every step—**Tuli's® Metatarsal Cushions** are your go-to solution for forefoot support that fits seamlessly into your daily routine.

Elastoplastsport Premium Sportstape 2.5cm

Professional-Grade Support | Secure Adhesion | Breathable Performance

Elastoplast Sport Premium Sportstape is engineered to deliver superior joint support and stability during high-intensity physical activity. Designed with professional athletes and trainers in mind, this high-performance tape ensures confidence and control in every movement.

Key Features:

- **Durable Rayon Cloth:** Constructed from high-quality, tan-coloured **rayon fabric** for maximum tensile strength and long-lasting support.
- **Secure Adhesion:** Features an **extra-strong, porous zinc oxide adhesive** to ensure the tape remains firmly in place, even during vigorous activity.
- **Breathability:** Designed with **air permeability** to allow sweat evaporation, helping to maintain consistent adhesion, stability, and comfort.
- **Quick Application: Pinked (zigzag) edges** prevent fraying and facilitate easier, faster application.
- **Reliable Performance:** Ideal for use in both preventative taping and post-injury support during rehabilitation or return to sport.

Elastoplastsport Premium Sportstape 3.8cm

Professional-Grade Support | Secure Adhesion | Breathable Performance

Elastoplast Sport Premium Sportstape is engineered to deliver superior joint support and stability during high-intensity physical activity. Designed with professional athletes and trainers in mind, this high-performance tape ensures confidence and control in every movement.

Key Features:

- **Durable Rayon Cloth:** Constructed from high-quality, tan-coloured **rayon fabric** for maximum tensile strength and long-lasting support.
- **Secure Adhesion:** Features an **extra-strong, porous zinc oxide adhesive** to ensure the tape remains firmly in place, even during vigorous activity.

- **Breathability:** Designed with **air permeability** to allow sweat evaporation, helping to maintain consistent adhesion, stability, and comfort.

- **Reliable Performance:** Ideal for use in both preventative taping and post-injury support during rehabilitation or return to sport.

Leuko Sportstape Premium Plus 3.8cm

Exceptional Strength | Reliable Adhesion | Professional-Level Support

Leuko Sportstape Premium Plus is a high-performance rigid strapping tape designed to provide outstanding joint support and stability during intense physical activity. Engineered for both preventative and post-injury taping, it is the trusted choice of sports medicine professionals and athletes alike.

Key Features:

- **Durable Construction:** Made with an **extra-strong rayon fabric** for high tensile strength and support during dynamic movements.
- **Rubber Zinc Oxide Adhesive:** Features a **high-grade rubber-based zinc oxide adhesive** that ensures secure adhesion even under high stress or sweat.
- **High Performance in Action:** Remains firmly in place during **high-intensity training, competition, and rehabilitation** scenarios.
- **Pinked Edges:** **Zigzag-cut edges** prevent fraying and allow for **quicker, more efficient application**.
- **Versatile Usage:** Ideal for **prophylactic (preventative) taping** to support joints and prevent injury, as well as **post-injury taping** to aid recovery and return to play.
- **Professional Finish:** Tan in colour and available in a **range of widths** to suit various applications.

Leuko Sportstape Premium Plus 5cm

Exceptional Strength | Reliable Adhesion | Professional-Level Support

Leuko Sportstape Premium Plus is a high-performance rigid strapping tape designed to provide outstanding joint support and stability during intense physical activity. Engineered for

both preventative and post-injury taping, it is the trusted choice of sports medicine professionals and athletes alike.

Leukoband 5cm

Leukoband 7.5cm

Leukoband Lite 5cm

Moderate Compression | Rapid Application | Versatile Use

Leukoband® Lite is a lightweight, hand-tearable adhesive bandage designed to provide moderate compression and firm muscle support during strenuous physical activity. It is ideal for overwrapping **Leuko® Rigid Strapping Tape** or securing wound dressings, enhancing joint stability and reducing the risk of injury or re-injury.

Key Features:

- **Moderate Compression & Support:** Offers firm support for muscles and joints during active movement, helping to prevent overextension and strain.

- **Versatile Overwrap:** Suitable for **overwrapping rigid tape** to further restrict motion or for **securing wound dressings** in place during play.
- **Lightweight & Breathable:** Constructed from a **cotton/polyurethane blend**, it provides support without adding bulk, making it ideal for use during high-performance sports.
- **Hand Tearable:** Easy to apply and remove **without the need for scissors**, allowing for quick treatment both on and off the field.
- **Reliable Adhesion:** Strong adhesive ensures the bandage stays firmly in place with **no loose ends** during movement or perspiration.
- **First Aid Friendly:** A practical solution for **emergency bandaging** of sprains, strains, and bleeding injuries.

Applications:

- Preventative strapping
- Post-injury compression
- Wound dressing security
- On-field emergency response

Always read the label. Use only as directed. If symptoms persist, consult a healthcare professional.
